

# EWC series

## One-way Clutch with Synthetic Resin Spring

Part Number: **EWC1012C**

Basic Size: **10 x 16 x 17 x 12 mm**

### Part No.: **EWC1012C** (Heavy Duty Type)

| Manufacturer            | ® CLI BEARINGS CO., LTD. |
|-------------------------|--------------------------|
| Standards               | Metric                   |
| Bearing Type            | Needle                   |
| Construction            | Single Row               |
| Seal Type               | Open                     |
| For Shaft Diameter (FW) | 10 mm                    |
| Bore Dia (FW)           | 10 mm                    |
| For Housing (D2)        | 16 mm                    |
| Outer Dia (D1)          | 16 mm                    |
| Outer Dia (D2)          | 17 mm                    |
| Width (B)               | 12 mm                    |
| Ring Material           | Steel                    |
| Needle Material         | Steel                    |
| Cage Material           | Steel                    |
| Spring Material         | Synthetic Resin          |
| Torque Capacity         | 2.35                     |
| Lubrication             | Lubricated               |
| Shaft Mount Type        | Press Fit                |
| Temperature Range       | -30° to 110 °C           |
| RoHS                    | Compliant                |
| Weight (g)              | 6.8                      |
